EXPERIENCE

React Developer Intern

Feb 2025 – Present

Karmaa Lab

Bengaluru

- Built real-world React projects like an Expense Tracker with authentication, dashboard UI, and charts using Context API and Chart.js.
- Developed a QR Code Scanner app with live camera scan and image upload using html5-qrcode
- Contributing to Rewardify Product App by building reusable components, handling forms, and setting up routes using React.

PROJECTS

Advanced To-Do Application | *React.js, Redux, JavaScript, Tailwind CSS, HTML*

- Developed task management application with priority-based sorting and weather API integration for activity planning.
- Utilized Redux for state management, ensuring seamless UI updates and enhanced performance.
- [Live Demo](#)

Currency Converter | *React.js, JavaScript, Tailwind CSS, HTML*

- Developed real-time currency converter using RESTful API integration.
- Implemented instant swap feature and searchable dropdown for enhanced UX.
- [Live Demo](#)

BrainBuster Challenge | *JavaScript, HTML, CSS*

- Engineered interactive quiz platform integrating Open Trivia Database API for dynamic content.
- Implemented persistent leaderboard using localStorage to track and rank user scores.
- Developed scoring system with time-based bonuses and personalized usernames.
- [Live Demo](#)

TECHNICAL SKILLS

Languages: JavaScript, Java, SQL, HTML, CSS

Frameworks: React, Redux, Tailwind CSS

Databases: MySQL

Developer Tools: Git, GitHub, IntelliJ, VS Code

ACHIEVEMENTS

- Secured a 4-star rating on HackerRank in Java, demonstrating proficiency in problem-solving and coding skills.
