## Career Objective

Enthusiastic Computer Science undergraduate with hands-on experience in front-end web development and cloud integration. Eager to apply my skills in real-world projects and contribute to innovative tech solutions.

## SKILLS

- **Programming Languages:** C, C++
- **Web Technologies:** HTML, CSS, JavaScript, Bootstrap
- **Backend / Cloud Technologies:** Firebase
- **Tools & Version Control:** VS Code, Git, GitHub

## EDUCATION

- B.tech(CSE) | Khwaja Moinuddin Chishti Language University CGPA: 7.8 | 2026
- XII (CBSE) | Laxmi Public School 65.6% | 2022

## ACADEMIC PROJECTS

- **Cake Town – Online Cake Shop Website** [Live Link](#)  
A responsive and interactive bakery-themed e-commerce website featuring product listings, user authentication, and a sleek user interface. Includes a review slider, user dashboard, and product pages designed with mobile responsiveness.  
**Technologies Used:** HTML, CSS, JavaScript, Firebase
- **Spotify Clone – Music Streaming UI** [Live Link](#)  
A front-end clone of Spotify that mimics the look and feel of the original app, with music controls, playlists, responsive layout, and hover effects. Emphasized the use of CSS Flexbox for modern layout design.  
**Technologies Used:** HTML, CSS, JavaScript
- **Simon Game – Interactive Memory Game** [Live Link](#)  
A JavaScript-based game that tests and enhances memory by generating a sequence of colors for players to repeat. Features dynamic UI updates, game logic handling, and responsive design for different devices.  
**Technologies Used:** HTML, CSS, JavaScript

## ACHIEVEMENTS / HOBBIES

- **Make4Lucknow Buildathon 2025 (June 2025)** — *Top 35 out of 240 teams*  
Participated in this city-level buildathon organized by Make4Lucknow / ERA Foundation. Built **Nukkad Ninja** — a location-based web app to help discover street vendors.  
**Technologies Used:** (HTML, CSS, JS) + Firebase backend.

## HOBBIES & INTERESTS

- Watching movies and listening to music
- Exploring UI/UX design inspirations from apps and media
