PROFFESIONAL SUMMARY

Passionate and dedicated Computer Science Engineering student with a solid grasp of fundamental concepts and a keen interest in technological innovation. Eager to contribute to cutting-edge projects, I excel in software development, algorithms, and problem-solving. Adaptable in dynamic environments, I thrive in collaborative, multidisciplinary teams, demonstrating quick learning, tech adaptation, and a commitment to driving creative solutions. Seeking opportunities to apply classroom knowledge to real-world challenges and advance technology.

EDUCATION

Bachelors of Engineering in Computer Science Engineering	2020 - 2024
• Chandigarh University, Gharuan, Punjab, India	
Intermediate (BSEB) Science Stream (PCMB)	2018 - 2019
• Ram Naresh Senyai, Kurtha, Bihar, India	
Matriculation (CBSE)	2016 - 2017
• Army Public School, Clement Town, Dehradun, India	

WORK EXPERIENCE

BLITZ LEARNING TECHNOLOGIES Pvt. Ltd. (INTERN)	1st June 2022 - 15th Dec 2022
• Designed a Manifesto of a learning website program	
• Solved a task for AutoCAD Worked in Creative team as an Intern	
BLITZ LEARNING TECHNOLOGIES Pvt. Ltd. (Software Developer- Web Developer)	19th June 2024 - Present
• My task is to solve error , bugs in companies website alongside to develop new website.	
• Also work for marketing team for post creation on canva and video editing for social media campaign	

PROJECTS & RESEARCH

• LOGIN AUTHENTICATION

2021 MAY

Technologies- HTML, CSS, JAVASCRIPT

A Login Authentication page in which it contains an login pages for sign up and sign and authentication of user is stored in php data-storer and after logging in a anime wallpaper page will appear to access wallpaper for downloading.

• RESTAURANT WEBSITE

2022 MAY

Technologies- HTML, CSS, JAVASCRIPT

A restaurant website named " GREEDY'S ADDA" was made for the appearance of that restaurant to template a service for customer to access menu and order food for in-dine or out-dine along with feedback section contain a single page with different section like home page , about page, menu page, etc....

• HOME PRICE PREDICTION

2023 JAN

Research paper is written on the basis of Python based project.

Basically, this research was based on using simple dataset a of csv file by a training dataset.

• STUDENT EXPENSE TRACKER

2023 APRIL

Research paper is written on the basis of Python based project using Machine learning.

• IoT BASED ENVIRONMENTAL MONITORING SYSTEM

2024 FEB-MARCH

Research and Review paper is Done on basis of lot (Internet of Things) using python code with the help of machine learning

This research is based of Internet of Things for environment monitoring using the detection method of devices and it can be changed and refresh the monitoring according to the time set or encrypted in python code.

TECHNICAL COMPETENCIES

- **Technical Skills:** Project Management, C++, Web Development(Frontend)
- **In Addition:** Web Development (html, CSS, JavaScript, node.js, react.js, next.js, Express.js)
AI tools: Veed.io, Wix Studio, Canva, LTX Studio, Figma
- **Languages:** English, Hindi

CERTIFICATIONS:

- **Data Mining** (Feb-May 2023) from Nptel
- **Software Testing** (Aug - Nov 2022) from Nptel
- **Computer Vision FOR ENGINEERING AND SCIENCE** (Aug-Sep 2023), Mathworks (Coursera)
- **HTML, CSS, and Javascript for Web Developers**, (April 12, 2022), Johns Hopkins University (Coursera)
- **Python Functions, Files, and Dictionaries** (April 16, 2022), University of Michigan (Coursera)
