WORK EXPERIENCE

Software Developer Intern | SEORCE

Aug 2025 - Present

Tech Stack: Next.js, MongoDB, Express.js, Node.js, AWS, Tailwind CSS

- Developed an interactive attendance tracking dashboard using Next.js, enabling real-time user monitoring and data visualization for improved administrative efficiency.
- Designed and implemented secure payment gateway integration to streamline transactions and ensure smooth user experiences.
- Built modern, responsive UIs with Next.js and Tailwind CSS, enhancing overall usability and visual appeal across devices.
- Created and maintained RESTful APIs using Node.js and Express.js, supporting features like attendance data retrieval and payment status updates.
- Collaborated with team members through code reviews and feature planning, maintaining code quality and consistent project standards.

Software Developer Intern | ParkSpot

Oct 2024 - Sept 2025

Tech Stack: Golang, Vue.js, Vuex, JavaScript, MySQL, GORM, RESTful APIs, Git, Docker, Postman

- Resolved 20+ critical bugs related to UI glitches, data inconsistencies, and API failures, significantly improving app stability and overall user experience.
- Re-designed and optimized the frontend using Vue.js, implementing modern UI/UX principles that increased user engagement metrics by 15%.
- Developed scalable RESTful APIs in Go to support features such as payment type updates and real-time booking retrieval, improving backend performance and data consistency.
- Upgraded the codebase from Vue 2 to Vue 3, boosting app performance and enabling faster development with improved scalability.
- Actively participated in code reviews and team discussions, ensuring high code quality, knowledge sharing, and alignment with project standards.
- Wrote and maintained unit and integration tests to ensure feature reliability, prevent regressions, and support smooth production deployments.

PROJECTS

SecretSend | [Link](#) | [GitHub](#) | Next.js, NextAuth, Resend Email, Shadcn, Gemini API

Sep 2024 - Oct 2024

- Developed a full-stack anonymous messaging platform, increasing secure user registrations by 30% while maintaining data privacy.
- Optimized MongoDB data processing using the aggregation pipeline, reducing query time by 15ms through efficient algorithms.
- Integrated AI-driven message suggestions, enhancing user interactivity through modern web technologies.

3legant.. | [Link](#) | [GitHub](#) | MERN Stack, Zod, Tailwind CSS

Aug 2024 - Sep 2024

- Developed a dynamic cart and product management system with real-time updates, enhancing user experience and admin efficiency.
- Implemented input validation using Zod and optimized search functionality with debouncing, reducing server load by 25% through efficient debugging techniques.
- Designed and streamlined navigation and UI based on industry trends, aligning with market needs for a seamless user experience.

SKILLS

Programming Language: JavaScript, TypeScript, Java (Basic)

Frontend Technologies: HTML5, CSS, Tailwind CSS, Bootstrap, React.js, Redux, Next.js, Vue.js

Backend Technologies & Databases: Node.js, Express.js, MongoDB, SQL, MySQL

Tools and Microservices: REST API's, Docker, Git, Postman, VS Code, Technical Documentation, CI/CD

Practices: OOPs (Object-Oriented Programming), Agile, Testing, Optimization, Documentation

ACHIEVEMENTS AND CODING PROFILE

- **ParkSpot:** Recognized as **Spotter of the Month (Employee)** for outstanding performance and contributions.
- **Winner** in Postman Student API Fundamental Program standing out among 10,000+ students.
- **Ranked** 106 out of 2,418 participants in GirlScript Summer of Code 2024.

EDUCATION

Sikkim Manipal University

Master of Computer Application

Online

Aug 2025 - June 2027

Jiwaji University

Bachelor of Computer Application

Gwalior, M.P., India

July 2021 - June 2024
