WORK EXPERIENCE

Creative Designer- Izmo.Ltd

Dec 2023 - April 2025

Design & UI/UX Development:

- Website & Visual Design: Designed website layouts, banners, and creative posts aligned with brand identity.
- Figma Expertise:** Managed 14+ projects and assisted 50+ using Figma. I am an advance Figma User with ability to create complex and creative interactions for engaging website experience. Expert in Auto-Layout, Components, Variables and more.
- Template & Prototype Creation:** Interactive web templates & collaborated with developers for implementation. All pages were made **feedback proof** by making a proper planed web pages, utilizing variables for controlling *fonts, colors, gaps*, etc., along with well arranged component sets.
- Design Research:** Researched various tools and plugins to improve workflow. Goal was to deliver quality website fast, for that Akbar, Rabi sir (manager), and I along with developers team researched on AI tools and plugins that could help create front-end fast.
- Team Functionality:** Took part in meetings with PMs and, with support of our manager, we were able to create a project and review system, to reduce the workload and improve the quality of deliverables, observing a **40% reduction in time to deliver projects**. Also took part in meetings with official Figma Representatives for to share our feedbacks and thoughts.

Team Training & Collaboration:

- **Team Mentorship:** Trained teams on basic to advanced Figma usage. After I completed my training on Figma, I self initiated training sessions on Saturdays open for all, later on, with permission of manager, I was allowed to train the team in official hours in the meeting room. I helped the members at team and individual level.

UK Team Collaboration:

UK design team was shifted to India, and I was shifted to the team, and soon became a key person as a designer and a communicator.

- **Brand-Focused Content Creation:** Designed 60+ brand banners and 1000+ Canva templates for Original Vehicle Manufacturers.
- **Process Documentation:** Developed documentation and tracking systems for feedback
- **Quality Assurance:** Reviewed and approved designs to ensure brand consistency

Jr. Concept Designer- Plangle Studio (Internship)

Aug 2022 – Sep 2022

Concept Design & Animation:

- **Visual Storytelling:** Designed 2D animations and visual effects to support narrative flow
- **Creative Collaboration:** Aligned visual concepts with storyboards in coordination with the film and art directors.

Animator – Duttainnovations Pvt. Ltd. (Internship)

Sep 2019 – Oct 2019

Animation for Promotions:

- **2D & 3D Animation:** Animated visuals and motion graphics for advertisement campaigns.
- **Client-Based Projects:** Promotional content tailored to client needs across different formats and platforms.

UI-UX Design, Graphic Design DesignBoat UI/UX School	_____	2023

ACHIEVEMENTS

Star of the Month 2X
Izmo.Ltd

2023, 2025

CURRENT INTERESTS & FUTURE GOAL

I am currently interested in learning more about design, hence learning Typography, Grid System and Colors, through books like 'Think with Type', 'Why Font Matters', 'Typographic System', 'Color Works', etc. I am also taking part in online design courses.

Apart from design, I am also learning Web-Development (Front), this is something that I am doing for my interest without any Goal of becoming a developers. It just interests me. I completed courses on HTML, CSS, JS (*ongoing*), GSAP, ReactJS (*ongoing*), P5JS, THREEJS (*ongoing*).

I wish to be a part of team where I can research, experiment and explore design and web-interactions. I am always looking on making my works more engaging and interesting.

If you have read this far, I thank you for your valuable time, and I would appreciated if you give a close look at my Behance. Not just the design, but the presentation. I have tried to add some interactive showcase.
