---

## Professional Summary

Java / Full Stack Developer with 2.1 years of experience in building secure, scalable, and high-performance web applications. Proficient in Java, Spring Boot, Microservices, Hibernate, MySQL, AngularJS, ReactJS, and REST APIs. Proven track record in delivering KeyGuard, TLDGuard, and Embedded KMS projects. Strong expertise in UI optimization, database performance tuning, and end-to-end testing. Open to backend and full stack development roles.

---

## Key Skills

**Backend:** Java (Core & J2EE), Spring Boot, Hibernate, Microservices, REST APIs, C++, Apache Kafka, python

**Frontend:** ReactJS, AngularJS, JavaFX, HTML, CSS, JavaScript, JSP

**Database:** MySQL, MongoDB

**Tools:** Git, Maven, Jira, Postman, Swagger, NetBeans, Eclipse, VS Code, Jenkins (CI/CD)

**Testing:** JUnit, Mockito

**Other:** RFID Integration, Raspberry Pi, Multilingual UI

---

## Work Experience

### Senergy Intellution Control Pvt Ltd — Software Developer

📍 Navi Mumbai, Maharashtra | 📅 July 2023 – Jan 2025

#### KeyGuard – Web-based RFID-enabled Key Management System

- Enhanced and maintained an RFID-based Key Management System (KMS) that securely holds keys and tracks their usage.
- Implemented new features including user authentication, access control, and a real-time key tracking dashboard.
- Worked on both frontend (**AngularJS**) and backend (**Java, Spring Boot**).

#### TLDGuard – Radiation Badge (TLD) Management System

- Contributed to the enhancement of a web-based application for secure storage and monitoring of TLDs.
- Designed and integrated new backend APIs (**Java, Spring Boot**) and developed responsive **ReactJS** components.
- Implemented real-time TLD usage tracking and alert mechanisms for unauthorized access.
- Conducted end-to-end functional testing, ensuring zero critical bugs in production.

## Embedded KMS for Raspberry Pi – JavaFX-based Key Management

- Enhanced an existing JavaFX-based application optimized for offline use in high-security environments.
- Implemented a multilingual UI features in project.
- Developed dynamic user and key registration forms with backend logic in Java.
- Deployed and tested the application on Raspberry Pi, ensuring smooth performance on low-power embedded systems.

## Trust Infotech India — Java Developer Intern

📍 Nagpur, Maharashtra | 📅 Jan 2023 – June 2023

- Completed a 6-month internship focused on full-stack development with Java technologies.
- Delivered UI features and backend modules for multiple web apps.
- Demonstrated excellent adaptability, meeting deadlines and exceeding expectations.

## Freelance Web Developer

📍 Remote | August-2025

- Designed and developed a responsive website for Saffire Electronic Audio & Video, showcasing products and services. Implemented interactive UI using React.js, HTML5, CSS3, and JavaScript.
- Deployed the website on Netlify: [saffire-electronic-audio-video.netlify.app](https://saffire-electronic-audio-video.netlify.app)

## Education

Bachelor of Engineering (B.E.) – Computer Science and Engineering | CGPA: 8.63

## Certifications

- Spring & Hibernate for Beginners (includes Spring Boot) – Udemy
- The Complete 2023 Web Development Bootcamp – Udemy
