PROFILE

B Tech Computer Science graduate with strong skills in Python, Java, SQL, HTML, and CSS. Certified in Cybersecurity, AI, ML, and Deep Learning. Passionate about integrating AI/ML with cybersecurity to develop innovative solutions against advanced cyber threats. Eager to contribute to real-world security projects and stay updated with emerging technologies.

EDUCATION

B.Tech Computer Science <i>St. Martin's Engineering College</i>	2019–2023 Hyderabad
Intermediate <i>Sri Chaitanya Jr Kalashala</i>	2016–2018 Hyderabad
SSC <i>St. Alphonsa's High School</i>	2016–2016 Hyderabad

SKILLS

- **Programming Languages:** Python, Java, C, SQL
- **Libraries / Tools :** Pandas, NumPy, Git, PyCharm, Postman
- **Cybersecurity & Ethical Hacking:** Ethical Hacking, AI for Cybersecurity
- **AI & Machine Learning:** ML Models, Deep Learning, Artificial Intelligence
- **Cybersecurity Tools:** Kali Linux, Metasploit, Nmap, Nessus, Burp Suite
- **Compliance & Risk:** ISO 27001, GDPR, GRC, MSA, NDA, DPA

INTERNSHIP

Cybersecurity Analyst <i>Digit Defence Pvt. Ltd. (Remote)</i>	09/2024 – 03/2025 Hyderabad
---	--------------------------------

- Secured real-time systems and implemented vulnerability assessments.
- Participated in proof-of-concept development for client environments.
- Practiced API security, endpoint protection, and secure system integration.

PROJECTS

Secure Data Sharing & Search in IoT Edge Cloud

- Designed a data-sharing system using edge computing and encryption.
- Applied indexing/search algorithms and device authentication.
- Managed integration between edge and IoT layers using secure protocols.

Custom Exploit Development using Metasploit

- Built automation modules for pen-testing with payloads and reverse shells.
- Practiced remote code execution, privilege escalation, and module reuse.

CERTIFICATES

Cyber Security Professional - NASSCOM

AI For Cyber Security Associate - IIFIS

Cyber Security Professional - IIFIS

Advanced Machine Learning and Deep Learning Masterclass - Udemy
