

## **ANSHUL VERMA**

*Software Engineer (Java)*

[anshul.verma7737@gmail.com](mailto:anshul.verma7737@gmail.com)

Phone: 8619005426

---

### **Professional Summary**

Highly skilled Software Engineer with over 5 years of comprehensive experience in Java development. Expert in Core Java, multi-threading, and the Spring ecosystem, including Spring Boot. Proven ability in designing and developing Java micro-services applications, leveraging containerization technologies such as Docker, and orchestrating with Kubernetes. Known for strong problem-solving skills, writing robust tests, and effectively collaborating with cross-functional teams. Demonstrates exceptional communication and leadership capabilities with a dedication to continuous learning and staying updated with emerging technologies.

---

### **Professional Experience**

#### **Prodware Solutions P. Ltd.**

*Software Engineer*

**Feb 2023 – Present**

- Designed and developed RESTful APIs to meet project requirements.
- Managed automation processes and business workflows across multiple teams.
- Implemented data synchronization with source systems to ensure consistency.
- Created applications in Java and Spring Boot to support business processes and client needs.
- Collaborated with business analysts, developers, and technical support to define optimal specifications and deliver solutions.

#### **Freelancer**

*Software Developer*

**Jan 2021 – Dec 2022**

- Conducted investigation, design, and implementation of scalable applications for data analysis and retrieval.
- Focused on developing software solutions aligned with client requirements and industry best practices.
- Worked closely with IT team members to plan and develop effective solutions.
- Estimated and facilitated the interface between hardware and software components.

#### **SolutionCube Technologies**

*Software Developer*

**Aug 2019 – Dec 2020**

- Developed and designed software solutions tailored to client needs.
  - Regularly consulted with customers on project progress, proposals, and technical issues.
  - Enhanced existing software by correcting errors, upgrading interfaces, and improving overall efficiency.
- 

## Technical Skills

- **Languages:** Core Java, Java 8, Advanced Java
  - **Databases:** MySQL, Oracle DB
  - **Operating Systems:** Windows
  - **Tools:** Workbench, IntelliJ IDEA, SQL Developer, Postman
  - **Frameworks:** Spring Core, Spring Boot, Hibernate, Spring MVC
  - **Web Services:** REST APIs
  - **Containerization:** Docker, Kubernetes
- 

## Education

- **BCA**  
Rajasthan Technical University
- 

## Projects

- **Warehouse Management and Scheduling Management**
  - **Role:** Software Developer
  - **Duration:** Feb 2023 – Present
  - **Technologies:** Java, Spring Boot
  - **Responsibilities:**
    - Developed REST APIs based on project requirements.
    - Managed automation processes and ensured smooth business operations.
    - Handled data synchronization and developed supporting applications.
    - Coordinated with various stakeholders to determine specifications and deliver optimal solutions.
- **Logistics**
  - **Role:** Software Developer
  - **Duration:** Jan 2021 – Dec 2022
  - **Technologies:** Java, Spring Boot
  - **Responsibilities:**
    - Designed and implemented scalable applications for data processing and indexing.
    - Focused on client needs during software development and design phases.

- Collaborated with IT team members to create smart solutions and estimate hardware-software interfaces.
- **Retailing**
  - **Role:** Software Developer
  - **Duration:** Aug 2019 – Dec 2020
  - **Technologies:** Java, Spring Boot
  - **Responsibilities:**
    - Designed and developed software solutions with a focus on client requirements.
    - Maintained regular communication with clients regarding project status and technical issues.
    - Enhanced software to fix errors and improve efficiency.
