## EDUCATION

### Bachelor Of Technology

Dr. APJ Abdul Kalam Technical  
University Lucknow (U.P)  
(2020)

## Projects

#### ◆ Designing and development of Banking Application.

Developed an application for banking automation using Python and MySQL. By using this application users can access their bank account, complete transactions, check balance,view payment history,manage account passwords etc.

#### ◆ Diwali Sales Data Analysis

Exploratory Data Analysis by using Diwali Sales Data Sets, Which isrelated to the sales on diwali and I performed an analysis on this data and carried out all the factors affecting the sales. On behalf of this analysis I was able to understand how we can make an upgrade to the sales.

#### ◆ HR Analytics Dashboard

Designed and developed a dashboard on HR analytics datasets using Power BI. In this I have preparad a report on reason of attrititions in company and created visuals for the same dataset.

#### ◆ Face Detection and Recognition System

Designed and developed a program to train the model using Machine Learning Algorithms which is being used to detect face in the human body while capturing a photo or video. Moreover trained the model to recognize faces in order to use it in automatic video-based attendance system.

#### ◆ Resturant Review Analysis

Designed and Developed a program to train the model to inspect the customer reviews based on their wordings to customize whether the review is "Positive or" "Negative" using NLP technique in Machine Learning approach. **P-1**

## SKILLS

Problem Solving Abilities  
Analytical Thinking  
Team-work  
Self-Motivated  
Good Logical Approach  
Smart-Wrok  
Management Skills  
Good Motivational Skills  
Open To Learn  
Integrity  
Exceptional Learning Approach  
Positive Behavioural Approach  
Training Skills  
Leadership Skills  
Recruitment Skills  
Analytical and Logical Thinking

## TECHNICAL SKILLS

Python  
Numpy  
Pandas  
MySQL  
Mongo DB  
SQL, SQLite  
Scikit Learn  
AutoCad  
Statistics  
Data Processing Algorithms  
Data Analytics  
Power BI  
Machine Learning  
Artificial Intelligence  
Neural Networks  
NLP (Natural Language Processing)

### ◆ Spam Detection

Designed and Developer Machine Learning Program to classify the text the messages into Span OR “Non-Span” using text mining approach, which automates number of applications like sentiment analysis, document classification, topic classification, text summarization, machine translation etc. Here we used different libraries like tkinter, sklearn etc. to classify the text on different basis to generate a proper result of the over all message. Especially we used the tokenization approach to to split the message into pieces to make it useful for analysis.

### ◆ WORK EXPERIENCE

Redleo Software Inc.  
Senior US IT Recruiter

DEC 2023- Present

Ramy Infotech Pvt. LTD.  
US IT Recruiter

OCT 2022- NOV 2023

Concentrix Daksh Services India Pvt. LTD.  
SR. Representative Operations Analyst

May 2018-APR 2021

I-energizer IT services Pvt. LTD  
Technical Support Specialist/ Advisor-I

Sep 2017-APR 2018

### ◆ Languages

**English**

**Urdu**

**Hindi**

**Kashmiri**

### ◆ Profeciency

**Professional**

**Bilingual**

**Conversational**

**Native**

### ◆ Personal Details:

**Preferred Name:** Raja Kashmiri

**Legal Name:** Tabasum Rashid Tantray

**Date Of Birth:** 05-October-1993

**Permanent Address:** Reshipora Qaziabad, Kupwara, Jammu and Kashmir

### ◆ Education Details:

**Bachelor's of Technology (ME)**

Dr. APJ abdul kalam Technical University Lucknow, 2020

**Data Science+ ML/AI Course (Certified)**

Ducat India IT Training Institute, sector 16, Noida, 2024

**Best Hobby:** Writing Poetry
