Profile

Hariprasaanth is a seasoned penetration tester with expertise in web app, API, internal network, IoT, mobile app (Android/iOS), and thick and thin client testing. He excels in identifying and mitigating vulnerabilities, offering tailored security solutions. Additionally, he has substantial experience in securing multi-cloud environments. Known for his commitment to excellence and continuous learning, Hariprasaanth effectively serves both government and global clients.

Experience

ASSISTANT SECURITY MANAGER | NeGD, MeitY | SEPTEMBER 2023 – SEPTEMBER 2024

- Conducted monthly penetration testing on staging and production websites.
- Assessed vulnerabilities and tested internal networks and AWS cloud infrastructure.
- Performed comprehensive pentesting on APIs for over 100 departments within the project.
- Performed monthly pentests on Android and iOS mobile apps for incremental updates.
- Secured critical services including Digilocker, NeGD, TRAI, and EPFO.

PRODUCT SECURITY ANALYST | WALTANCE | SEPTEMBER 2021 – SEPTEMBER 2023

- Pentested web applications to identify and address vulnerabilities.
- Pentested network applications to evaluate and mitigate security weaknesses.
- Pentested APIs to uncover and resolve vulnerabilities in data exchange mechanisms.
- Pentested desktop and cloud environments to ensure robust security assurance.
- Pentested Android and iOS ecosystems to ensure resilience and security.
- Analyzed publicly available information to uncover potential risks.
- Effectively communicated findings and security assessments.

Education

BACHELOR OF TECHNOLOGY IN INFORMATION TECHNOLOGY | AUGUST 2021 | VEL TECH HIGHTECH ENGINEERING COLLEGE, CHENNAI, INDIA

Certifications

- CompTIA Security+
- CompTIA CYSA+
- AWS Certified Security – Specialty
- Microsoft Certified: Azure Security Engineer Associate
- Professional Cloud Security Engineer Certification
- Certified API Security Analyst
- Practical Malware Analysis & Triage

Skills & Abilities

PENTESTING SKILLS:

- Web Application Penetration Testing
- Network Penetration Testing (Internal/External)
- IoT Penetration Testing
- API Penetration Testing
- Mobile Application Penetration Testing (Android/iOS)
- Application Penetration Testing (Thick/Thin Client)
- Cloud Penetration Testing (AWS/Azure/GCP)

PROFICIENT IN:

- Red Teaming
- Reverse Engineering
- Malware Analysis
- Vulnerability Assessment
- Network Security
- Digital Forensics
- OSINT
