Profile

Cybersecurity Enthusiast and Mobile App Developer with a B.Tech [🎓] in Computer Science (2023) and a growing focus on ethical hacking, penetration testing, and secure system design. Experienced in configuring enterprise-grade infrastructure, including Active Directory, DNS/DHCP, IIS, and GPOs on Windows Server, alongside practical Linux administration using Kali Linux. Currently exploring real-world vulnerabilities (misconfigurations, OSINT) and tools like Shodan, Hashcat, and Burp Suite.

Professional Experience

Clarigo Infotech Pvt. Ltd.

Junior Mobile App Developer

06/2024 – 09/2024

Indore (MP)

- **ASE Case Management**

Developed a mobile platform for parents of 4–6-year-olds and teachers to submit child progress reports, raise issues, and request updates, enhancing parent-teacher communication. Implemented real-time tracking and secure data handling using **Flutter** and **Firestore**.

Technology: Flutter, Firestore, API Integration, UI/UX

- **Racepace**

Built a Formula 1 betting app allowing users to place bets on drivers and race outcomes. Designed intuitive UI/UX and secure transaction workflows using **Flutter** and **Firestore**, improving engagement and ensuring safe, real-time betting experiences.

Technology: Flutter, API integration, UI/UX

Mobile App Developer Intern

03/2024 – 06/2024

Indore (MP)
