

PRAVAL SHARMA

Front-End Developer | React.js | Responsive Web Solutions

9368051080 • praval7453@gmail.com • linkedin.com/in/Praval • Gurugram, India

Summary

I am a Front-End Developer with a focus on creating responsive and intuitive user interfaces using modern web technologies. I have experience in developing components with React.js and ensuring optimal performance in user applications. My background in Computer Science from Anand Engineering College complements my technical skills in JavaScript, HTML, and CSS. I'm eager to contribute my expertise in building innovative web solutions

Experience

PhiBonacci Solutions Private Limited

Ahmedabad

Front-End Developer Intern

04/2025 - 07/2025

A company specializing in software solutions and web development

- Developed and implemented responsive user interface components for application using React.js and Tailwind CSS
- Built reusable UI modules (e.g., navigation bars, modal dialogs, forms) from design mockups using HTML5, CSS3, and JavaScript
- Designed and styled pixel-perfect layouts, ensuring consistency with brand guidelines across multiple pages
- Participated in daily stand-ups, code reviews, and sprint planning sessions, contributing to project discussions

Projects

Front-end code editor

A real-time code editor for web development

- Developed a real-time code editor enabling users to write and preview HTML, CSS, and JavaScript in separate panes
- Implemented React.js for efficient state management, ensuring smooth and responsive editing experience
- Optimized performance to handle large code inputs, creating a seamless and engaging user experience

Skidity

A website providing weather information and population statistics

- Developed a dynamic real-time weather and population statistics website using React.js, CSS, and JavaScript
- Integrated the OpenWeather API to fetch and display accurate weather data, including forecasts and current conditions
- Enhanced user experience and accessibility, leading to a 30% increase in website traffic through optimized performance and intuitive UI

Portfolio

A personal portfolio website showcasing work and skills

- Developed a modern, responsive personal portfolio website using React.js to build a single-page application (SPA)
- Implemented reusable React components (e.g. Navbar, About, Skills, Projects, contact sections) to ensure modularity and maintainability
- Utilized React component-based architecture to manage UI state and optimize rendering efficiency

Skills

C/C++ · CSS · GitHub · HTML · JavaScript · Mockups · React · SPA · SQL · Tailwind · Gmail

Education

Anand Engineering College

Agra, U.P

Bachelor of Technology

10/2021 - 06/2025
