WORK EXPERIENCE

React Js Developer

AppyStack pvt.ltd. Pune (2+ years)

3/2023 - 03/2025

Appystack Pvt Ltd, a leading Pune-based software company, specializes in delivering intelligent healthcare solutions to hospitals.

- Developed Key **HIMS modules: IPD/OPD, Registration, Admission, Emergency Clinical, Nursing**, to streamline operations.
- Built specialized interfaces for **Nursing Scheduling, Document Management, and table drag-and-drop Form Field Layout.**
- Designed and implemented **Dashboard** from real-time data visualization on patient metrics, resources utilization, and financial overviews.
- Created reusable **UI components** (inputs, dropdowns, modals, buttons, navigations drawers) to ensure consistency and improve efficiency.
- I Have create functionality by using **Canvas to Draw Point On Images.**
- Consumed and optimized **REST APIs** for seamless data exchange between frontend and backend services.
- Conducted additional **security checks** and implemented **auto-logout functionality** to enhance data protection.
- Utilized **React.Js, Tailwind CSS, Material-UI(MUI)**, and modern security practices to develop responsive, high-performance, and accessible applications.
