Portfolio

EDUCATION

Charotar University of Science and Technology

B.Tech. in Computer Engineering

📅 Sep 2022 – Present

📍 Anand, Gujarat

- CGPA : 8.98/10

Tapovan Science Academy

Higher Secondary School

📅 May 2021 – Jul 2022

📍 Surat, Gujarat

- PERCENTAGE : 82.00 %

SKILLS

C/C++, HTML, CSS, Javascript, Node JS, Express JS
Data Structures & Algorithms, React JS

EXPERIENCE

TechEniac Services LLP. | Software Engineer Intern

📅 July 2025 – Present

📍 Ahmedabad, India

- Learned and worked with modern web development technologies following **industry standards**.
- Collaborated closely with senior developers, gaining insights into best coding practices, **scalable architecture**, and maintainable design patterns.
- Actively refined and enhanced websites and applications to meet production-grade quality, focusing on **performance, security, and user experience**.
- **Tech Stack:** Nodejs, Express js, MongoDB, ReactJs

HexaScal Technologies | Full-Stack Developer Intern

📅 May 2024 – June 2024

📍 Surat, India

- Contributed to the backend development of an **HRMS** project, focusing on database management and server-side logic.
- Developed and implemented APIs for user login and signup with robust **authentication** and **authorization** mechanisms.
- Designed and optimized **RESTful services** to ensure secure and efficient user management within the application.
- Integrated **JWT** and **OAuth2** for enhanced security and user authentication.
- **Tech Stack:** Nodejs, Express js, MongoDB, ReactJs

ACHIEVEMENTS

- CodeChef, Max rating: **1530**
- Codeforces, Max Rating: **1043**
- Globalrank - **168** in CodingNinjas Weekend Contest
- Globalrank - **286** in CodeChef Starters 174 Div-3
- Globalrank - **290** in CodeChef Starters 135 Div-3
- Globalrank - **523** in CodeChef Starters 103 Div-4
- Globalrank - **987** in CodeChef Starters 83 Div-4
- Solved **400+** Competitive Programming Problems

COURSES

- Data Structures & Algorithms
- Object Oriented Programming with C++
- Database Management System
- Operating System

PROJECTS

Ai Carrer Guru - GuideAi

- Built an AI-powered career mentor using **Google Gemini AI** to analyze resumes, match jobs, and give personalized career advice.
- **ATS-based resume parsing**, career paths, and learning tips to boost skills and track trends.
- **TechStack:** ReactJs, NodeJs, ExpressJs, PostgreSQL

E-Commerce App

- Developed a complete e-commerce platform with **product browsing, filtering, search functionality**.
- Implemented **JWT-based** role management for **secure authentication**.
- Integrated **Stripe** for **secure payments** and designed an efficient order management system for efficient tracking and processing.
- **TechStack:** ReactJs, NodeJs, ExpressJs, MongoDB

Human Resource Management System

- Built a full-featured HRMS using the MERN stack to streamline employee attendance and leave management, **ensuring accurate** tracking and improved HR **efficiency**.
- Developed the entire backend of the HRMS, ensuring robust functionality and seamless integration.
- **TechStack:** ReactJs, NodeJs, ExpressJs, MongoDB

CERTIFICATIONS

- Codekaze-Sep'23 : Round 2 Naukri Engineers Week (AIR 5078)
- Workshop of Generative AI from SCRATCH (Feb 2024)
- Introduction to Java and Object-Oriented Programming from Coursera (Aug 2023)
- Workshop of Demystifying Machine Learning from Club Gamma (March 2023)
- Cognizance Technical event Relay and Blind Coding
- Participated in Coder Arcade 1.0
- Participate in Code Pie 3.0
