## SUMMARY

---

- Software Engineering Experience: 2+ years of hands-on experience in full-cycle software development, specializing in Java-based solutions
- Expertise in Core Technologies: Proficient in Java, Spring Boot, Hibernate ORM, and Microservices architecture.
- Database Management: Strong skills in SQL Server, PostgreSQL, and MySQL, with practical experience in Spring JPA and JDBC.
- RESTful API Development: Adept at designing, integrating, and customizing RESTful APIs for seamless system interaction. in Spring JPA and JDBC.
- Problem Solving and Project Management: Proven ability in state management, issue resolution, and overseeing product development projects.
- Testing of mobile application and web application.
- Strong expertise in writing and executing SQL queries for data validation.

## Education

---

<b>Chandigarh University</b> B.E. Computer Science Engineering	2018 – 2022
<b>Higher Secondary</b> Jharkhand Open School Board	2017 – 2018
<b>Secondary</b> Bal Vikas Vidyalaya	2015 – 2016

## Experience

---

**Associate Consultant**, *Bristlecone India Limited* Dec 2023 – Jan 2025

- Integrated SAP systems with Java-based solutions using JCo and OData protocols, ensuring robust and secure data exchange. .
- Configured and managed RFC connections and utilized NWRFC SDK to streamline complex business processes.
- Designed and executed ETL workflows using IBM Designer Client and DataStage for efficient data migration and transformation.
- Debugged and resolved complex integration issues, ensuring minimal downtime and smooth system operations.
- Developed and tested ETL pipelines using IBM Designer Client and DataStage for efficient data processing workflows. .
- Prepared technical documentation, including API specifications, integration guides, and system configuration details, for internal and client use.
- API Tesing with Rest Assured,Postman, Swagger UI.

**Software Engineer**, Samin TekMindz India Pvt. Aug 2022 – Aug 2023

- Spearheaded the development of REST APIs for compliance conformance rules within the OpenADR 2.0b framework, enhancing communication between the Virtual Top Node (VTN) and Virtual End Node (VEN)
- Implemented OpenADR commands for both version 2.0.a and 2.0.b, showcasing adaptability to different standards.
- Contributed to resolving complexities and refining system functionalities with in-depth knowledge and problem-solving skills.
- Developed test-driven code using JUnit, achieving 90% coverage.
- Designed and tested RESTful APIs with tools like Postman, ensuring secure authentication with JWT tokens.  
Skills: Java, Spring-Boot, SQL.

## Technical Skills

- Programming Languages: Java, SQL

- Frameworks & Tools : Spring Boot, Spring MVC, Hibernate, Microservices, Maven, JDBC
- SAP Expertise: SAP R/3, ECC, ABAP, BAPI, BW, JCo, RFC, NWRFC, OData.
- Version Control & Project Management: Git, GitHub, JIRA, Agile.
- Job Design & ETL Tools: IBM Designer Client, DataStage ,SAP Logon, SAP GUI, IntelliJ IDEA, VS 2010, VS 98.
- Databases: SQL, PostgreSQL, MySQL
- Operating Systems: Ubuntu, Windows
- Testing Tools: Postman and Swagger

## **CERTIFICATIONS**

---

Certificate in SQL (Intermediate) .

Problem Solving(Basic) .
