Summary

Recent Master's in Computer Applications graduate (2025) with strong foundation in Java backend development and hands-on experience building projects using Spring Boot, Microservices, and REST APIs. Passionate about developing efficient, scalable solutions with expertise in data structures, algorithms, and OOP concepts. Demonstrated problem-solving ability through 400+ coding challenges on competitive platforms.

Education

Kalinga Institute of Industrial Technology (KIIT)

Master's of Computer Applications, CGPA : 8.71

2023 – 2025

Bhubaneswar, Odisha

Fakir Mohan University

Physics(Hons), CGPA : 7.41

Technical Skills

Backend: Java ,Spring Boot, REST APIs, Microservices,

Database: MySQL, PostgreSQL, (ORM)Spring Data JPA

Tools: Git, GitHub, Docker

Frontend: React, JavaScript, HTML5, CSS3, Tailwind CSS

Core Programming: Data Structures, Algorithms, OOP

Projects

Task Management System | *React.js, Tailwind CSS, Spring Boot (Microservices)*

- Developed a task management platform with Spring Boot microservices architecture, enabling modular deployment and maintenance
- Implemented core services including User Service, Task Service, and Authentication Service using JWT-based authentication and Spring Security
- Integrated Eureka Server for service discovery and Spring Cloud Gateway for API routing and centralized security
- Utilized Postgres for persistent storage and REST APIs for frontend-backend communication

AI-Powered Email Reply Generator | *React.js, Tailwind CSS, Spring Boot, Google Gemini API*

- Developed an AI-powered email reply generator using React and Java Spring Boot, reducing email response times by 60%
- Integrated Google Gemini API to generate intelligent and contextually relevant email replies
- Containerized the application using Docker and deployed on Render cloud
