1 Education

MCA, Master of Computer Applications 2023 – 2025

Galgotias University, Greater Noida

Relevant Coursework: Software Development Life Cycle (SDLC), Database Management, Web Development, Cloud Computing

BCA, Bachelor of Computer Applications 2020 – 2023

Chaudhary Charan Singh University, Greater Noida

Relevant Coursework: Programming in Java, Data Structures, Operating Systems, Agile Methodologies

2 Experience

Technical Intern, TechSnitch Pvt. Ltd. January 2025 – March 2025

Noida, India

- Developed and customized ServiceNow modules, including forms, workflows, and client/server-side scripts using JavaScript and Glide API, enhancing IT service delivery.
- Configured IT Service Management (ITSM) features for incident, problem, and change management, optimizing service processes for 20+ internal clients.
- Wrote and debugged Business Rules, Client Scripts, and UI Policies, automating platform tasks and improving functionality by 15
- Collaborated with cross-functional teams to ensure compliance with Payment Card Industry (PCI) security standards.

Java Full Stack Developer Trainee, Wipro May 2024 – September 2024

Greater Noida, India

- Completed Wipro TalentNext Java Developer Training, mastering Core Java, J2EE, Spring Boot, Hibernate, React, and full-stack development.
- Developed and deployed 3+ real-world web applications, applying SDLC principles, including coding, testing, and debugging, achieving 95% on-time delivery.
- Managed relational (MySQL, PostgreSQL) and NoSQL (MongoDB) databases, optimizing queries to improve performance by 10%.
- Worked in agile teams, contributing to sprint planning and delivering project milestones through effective coordination.

3 Skills

- **Programming Languages:** Java, JavaScript, TypeScript, Python
- **Frameworks/Libraries:** React.js, Node.js, Spring Boot, Express.js, Hibernate, RESTful APIs
- **Tools/Platforms:** Git, GitHub, Visual Studio Code, WSL, AWS EC2, Maven, ServiceNow
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Operating Systems:** Linux (Ubuntu, Amazon Linux), Microsoft Windows

- **Other:** Software Development Life Cycle (SDLC), Agile Methodologies, API Integration, PCI Compliance

4 Projects

Flickerr – Full-Stack Dating Application

[Live Demo](#)

- Designed and developed a full-stack dating application using MERN stack (MongoDB, Express.js, React.js, Node.js), enabling profile creation, matching, and real-time interactions for 100+ users.
- Integrated RESTful APIs and Socket.io for real-time messaging, achieving seamless communication with low-latency event-driven architecture.
- Deployed on Render, optimizing for scalability and performance, reducing load times by 20% through efficient database queries and caching.
- Utilized Git for version control and collaborated with a team of 3 developers in an agile environment to deliver features on schedule.

5 Certifications

- Software Engineering and Agile Software Development, Infosys Springboard, 2024
