## Summary

---

Enthusiastic Computer Science and Engineering student skilled in C++, Python, JavaScript, HTML, CSS, and MySQL. Experienced in creating advanced applications, such as a music player and a responsive website. Proficient with GitHub, VSCode, and Eclipse. Strong in data structures, database management, and object-oriented programming. Demonstrates leadership, problem-solving, and resource management skills. Fluent in English, Hindi, and Marathi.

## Education

---

### G. V Acharya collage of Engineering

*Bachelor Of Engineering : Computer Science(AI&ML)*

June 2021 – June 2025

### Dr. D Y Patil School and Jr.collage, Navi Mumbai

*Higher Secondary Education*

June 2019 – May 2021

## Skills

- 
- **Programming Languages:** C++, Python, JavaScript, HTML, CSS
  - **Databases:** MySQL
  - **Technologies/Tools:** GitHub, VsCode, Eclipse
  - **Core Concepts:** Data Structures, Database Management, Object-Oriented Programming
  - **Soft Skills:** Leadership, Event Management, Efficient Resource Allocation, Decision Making, Problem Solving
  - **Languages:** English, Hindi, Marathi

## Project

---

### Music Player Application:

- **Feature-Rich Design:** Developed a music player with intuitive UI, playlist management, playback controls, audio visualizations, and equalizer customization.
- **Technologies Used:** Implemented using html, CSS, JavaScript, and Web Audio API; ensured compatibility with multiple audio formats.
- **Achievements:** Enhanced user experience, optimized performance, and successfully managed the project timeline, showcasing strong technical and project management skills.
