**Soft Skills:** Problem-solving, Teamwork, Communication, Leadership

---

## Internship Experience

**Promact – Software Engineer Intern (Android, React Native, Node.js)** [Feb 2025 – May2025]

- Built a mobile app where mentees can find compatible mentors based on interests and skills.
  - Integrated features like **request sending**, **cancellation**, and **mentor profile viewing/editing**.
  - Used **PostGressSQL** for offline data storage and **Redux** for global state management.
  - Implemented smooth user experience with real-time UI updates and API integration.
- 

## Projects

**Personal Portfolio** A personal portfolio website built using HTML, CSS, and JavaScript to showcase my skills, experience, and projects in a clean, responsive design. Features a home- page introduction, a “Projects” section, and a contact form.

**HealthNews Web App** A responsive React-based news application integrating with News- API to fetch and display health-related articles. Supports search functionality, category-based filtering (e.g., Nutrition, Fitness), and provides external article links.

**OCR Extractor** A web page that converts images into editable text using Tesseract.js, enhancing data processing efficiency. Built with ReactJS, Node.js, and MongoDB, featuring accurate text recognition, multi-language support, and a user-friendly interface.

**TO DO APP** is a task management application that allows users to create, update, delete, and track daily tasks efficiently. It helps users stay organized and boost productivity by managing their task lists in one place.

---

## Achievements and Certifications

- Solved 100+ Leetcode problems, demonstrating problem-solving skills
- Certification in Learning ReactJS, Infosys Springboard
