Professional Summary

Experienced Front-end Developer with over 9+ years of expertise in developing and maintaining scalable, high-performance applications using modern web technologies such as React.js, TypeScript, Next.js, Strapi, and Node.js. Proven history in designing and deploying dynamic web applications, managing large codebases, and collaborating with cross-functional teams to deliver seamless and robust solutions. Adept at building responsive, user-centric interfaces, and integrating backend services to provide high-quality solutions to clients across multiple industries.

Technical Skills

Frontend: React.js, Next.js, TypeScript, HTML5, CSS3, Tailwind, Material UI, SASS, JavaScript ES6+

Backend: Node.js, Strapi, GraphQL, PHP, REST APIs

Databases: MongoDB, PostgreSQL, MySQL, SQL

Tools & Frameworks: Adobe Photoshop/Illustrator/XD, Figma, WordPress, Shopify, Webpack, Agile/Scrum, JIRA

Cloud & DevOps: CI/CD Pipelines, Git, AWS (S3, Lambda, EC2), Heroku, Netlify, Vercel, cPanel

Other: WebSockets, JWT, OAuth, Redux, Next-Auth, State management, Jest, React Testing library

Professional Experience

Frontend Developer - Intuit

Toronto, CA | Mar 2024 – Feb 2025

- Led a team of 3+ developers to build and maintain enterprise-level web applications with React.js, Next.js, Node.js, and Strapi.
- Spearheaded the design and development of RESTful APIs using Node.js and Strapi for content management and user authentication.
- Architected and optimized front-end solutions in React.js and TypeScript, improving load times by 30% and ensuring accessibility compliance.
- Implemented server-side rendering (SSR) with Next.js, improving SEO and performance for client-facing websites.
- Collaborated with product managers and designers to translate business requirements into technical solutions and UI components.

Key Achievements:

- Improved application performance by optimizing React components, reducing page load time by 40%.
- Played a key role in migrating the company's legacy backend systems to Strapi CMS, streamlining content management and enhancing flexibility.

Software Development Engineer - Actonate IT Solutions

Vadodara, IN | Dec 2020 – Feb 2023

- Designed and implemented interactive, responsive web applications using React.js, TypeScript, and Next.js.
- Integrated with Strapi CMS to build dynamic, content-driven websites with real-time updates.
- Developed a custom plugin for Strapi to handle multi-language content, enabling localized experiences for users across various regions.
- Optimized web applications for performance, reducing bundle sizes by 25% using lazy loading and code-splitting.
- Implemented Redux for state management, ensuring smooth data flow across large-scale applications.
- Worked with UI/UX designers to deliver pixel-perfect front-end implementations.

Key Achievements:

- Delivered a custom dashboard for client management, resulting in a 20% increase in operational efficiency.
- Designed and maintained a complex CMS platform integrated with Next.js for a global eCommerce brand.

Frontend Developer - IndoUs Collaboration Group

Vadodara, IN | Aug 2019 – Jul 2020

- Developed full-stack web applications using Node.js, React.js, and TypeScript.
- Designed and developed RESTful APIs with Express.js and integrated them with databases like MongoDB and PostgreSQL.
- Developed custom modules in Strapi CMS to allow easy content management and integration into eCommerce sites.
- Worked in a CI/CD environment using Jenkins and Docker to deploy applications to AWS EC2 and S3.
- Built dynamic forms, data tables, and interactive UI components for client applications using React.js.

Key Achievements:

- Reduced application response time by 30% by optimizing API calls and implementing caching strategies.
- Helped deliver a mobile-first, highly responsive web application for a fintech client.

Frontend Web Developer - Thomson Reuters

Mumbai, IN | Apr 2016 – Apr 2019

- Contributed to the development of a large-scale web application using Node.js and React.js.
- Built internal tools using React.js and Redux for data visualization, reporting, and analytics dashboards.
- Participated in the development and deployment of various web applications hosted on AWS.
- Developed unit and integration tests using Jest and Mocha, improving the application's stability and reducing bugs.
- Collaborated with senior developers to optimize the application architecture and improve overall efficiency.

Key Achievements:

- Enhanced the client-side performance by refactoring React components for better scalability and faster rendering.
- Improved API throughput and scalability by refactoring key endpoints for more efficient data retrieval.

Jr. Frontend Developer - Wipro

Mumbai, IN | Apr 2014 – Mar 2016

- Designed and developed web pages and user interfaces using HTML5, CSS3, and JavaScript.
- Assisted in building dynamic client-side features using React and jQuery for improved user experience.
- Integrated third-party APIs and services into applications to enhance functionality.
- Participated in sprint planning, requirement analysis, and code reviews in an Agile environment.

Key Achievements:

- Led the UI/UX redesign for a legacy web application, significantly improving usability and user satisfaction.
- Helped migrate an old codebase to modern JavaScript frameworks, improving maintainability.

Education

Master of Computer Application - Parul University | Vadodara, IN | 2017

Bachelor of Computer Application - Veer Narmad South Gujarat University | Vadodara, IN | 2014

Certifications

Frontend Developer (React) - HackerRank | 2025

MS Dynamics365 BC Technical - ACTE Technologies | 2023

Software Development Fundamental - Microsoft | 2017
