Frontend Developer with 2+ years of experience building scalable and responsive web applications using **React, Angular, and Next.js**. Strong in translating UI designs into high-performance, accessible interfaces, integrating REST APIs, and optimizing frontend performance. Experienced in Agile environments and deliver reliable fintech, e-commerce, and corporate platforms.

TECHNICAL SKILLS

Frontend: React, Next.js (SSR/SSG), Angular 16+, JavaScript (ES6+), TypeScript

State Management & Forms: Redux Toolkit, RxJS, React Hook Form, Zod

UI / UX & Accessibility: Tailwind CSS, SCSS, Bootstrap, Framer Motion, WCAG compliance, ARIA, Semantic HTML

Backend & APIs: Node.js, Express.js, MongoDB, REST APIs

Performance Optimization: Code splitting, memoization, tree-shaking, virtualization, render optimization

Testing & Quality: Jasmine, Karma, Unit Testing

Tools & DevOps: Git, GitHub/GitLab, Vercel, Docker, CI/CD pipelines, Postman

Engineering Practices: SOLID principles, reusable component architecture, clean and maintainable code

PROFESSIONAL EXPERIENCE

Frontend Developer

it4youbusiness.in, Manikonda, Hyderabad | August 2023 – Present

- Developed and maintained responsive web applications using **React, Angular, and Next.js**.
- Built reusable UI components and managed application state using **Redux, Context API, and RxJS**.
- Optimized performance by reducing unnecessary re-renders and improving component lifecycle handling.

- Integrated REST APIs and implemented robust form handling with validation.
 - Followed clean code practices, accessibility standards, and performance optimization techniques.
-

KEY PROJECTS

Renozan – Fintech Payment Solution Platform

Technologies: Angular 17, TypeScript, Tailwind CSS, RxJS, REST APIs, Chart.js

- Designed and developed **UI screens and workflows** for KYC, invoicing, wallet operations, and transactions.
- Built **12+ responsive Angular modules** using Tailwind CSS for mobile and desktop views.
- Implemented **RxJS-based service layer** for API integration and state management, reducing redundant calls by **25%**.
- Integrated **Razorpay, PayPal, and crypto payment gateways** for secure multi-channel transactions.
- Developed **real-time analytics dashboards** using Chart.js for transaction and balance insights.

Technofex – Internal Payment Application (Nepal)

Technologies: Angular 16, TypeScript, Tailwind CSS, REST APIs

- Developed **UI screens and localized workflows** aligned with Nepali payment regulations and geo-restrictions.
- Delivered **8 core features** including dashboards, funding flows, verification, and partner onboarding.
- Integrated **phone number verification API (nepalkart.com)** to ensure regulatory compliance.
- Built a **reusable UI component library (15+ components)**, improving delivery speed by **40%**.
- Implemented **saved recipient functionality**, reducing transaction completion time by **50%**.

Shop House Mocha – E-commerce (Internal) | React, TypeScript, Tailwind, Redux, React Hook Form, Zod

- Built an internal e-commerce demo with product listings, filters, cart management, and validated checkout flow.

YANA Mobility India Pvt Ltd – Vehicle Services Platform | React, Next.js, Tailwind

- Migrated Angular site to React/Next.js, preserving brand design; deployed on **Vercel** with responsive, component-driven architecture.

IT4YOURBUSINESS Pvt Ltd – Corporate Website Migration | React, TypeScript, Tailwind

- Converted Angular website to React, improve navigation, modular UI structure, and form handling validation.

EDUCATION

Bachelor of Commerce (Computer Application)

Satavahana University, Hyderabad | 2021

CERTIFICATIONS

- Full Stack Developer Certification – Naresh IT, 2021
- Salesforce Administration & Business Analyst Certification – Digital Lync, 2022
