- Team Work
- Remote Collaborator

PROJECTS

Cropwise Base

Website

- Cropwise Base Web App: A platform in the science based ag-tech company where user can create their farms, organizations, crops, fertilizers and manage all their farm settings.
- Tech Stack: **ReactJs, Typescript, HTML, CSS, Redux, React Query, Jest, Playwright, Amplitude, Antd, Webpack, antd, Mapbox and Turf**
- Contributed in bug fixes, rebranding of pages, developing new features, writing unit test cases to make the project bugs free, adding events to track the user activity.

Cropwise Planting

Website

- Cropwise Planting: Product service gives farmers users greater flexibility and accuracy in tackling in-field variability, helping users optimise inputs for each field, getting the most from their hybrids, and improving their return on investment.
- Tech Stack: **Typescript, React, Antd, React Query, Redux, Turf + Leaflet, Plug n Play, Playwright, Esbuild, Node Js, Express Js, InversifyJs, Wiremock**
- Contributed in bug fixes, rebranding of pages, developing new features, end to end testing.

Goibibo Company

Github

- Goibibo is india's leading online travel booking brand providing range of choices for hotels, flights, trains, buses and cars for travelers.
- Tech Stack: **ReactJs, JavaScript, Firebase, Html, Css, Redux** for an intuitive interface.
- Collaborative project with a team of 4 members completed in 5 days.
- My Role :- Built Bus section and Travel Details part, Frontend for Landing page and Travel details page, swapping features for the ticket booking details.
