Summary

I am a proactive and detail-oriented professional with a Master's in Computer Application and training in Full Stack Development. I have experience building dynamic web applications using technologies like React.js, Spring Boot, and MySQL. I am passionate about using my skills to create scalable and user-friendly software solutions.

Skills

- **Programming Languages:** Java, JavaScript, HTML, CSS
- **Frontend Technologies:** React.js, Redux, Bootstrap
- **Backend Technologies:** Spring Boot, RESTful APIs
- **Database Management:** MySQL, PostgreSQL
- **Development Tools:** Git, Maven, Postman, Docker
- **Concepts:** Object-Oriented Programming (OOP), MVC, Agile, CI/CD

Education

Bachelor's Computer Science
Sapthagiri Degree College, Hindupur.

Mar 2019 - Aug 2022
CGPA - 7.6

Masters in Computer Application
Sapthagiri Institute of Management, Hindupur.

Mar 2023 - Aug 2025

Internship Experience

Java Full Stack Developer Trainee - ExcelR Institution, Bangalore Aug 2023 - Sep 2024

- Successfully completed a professional training program in Java Full Stack Development covering **React.js, Spring Boot, MySQL** and **REST APIs**.
- Gained hands-on experience by completing industry-relevant assignments, demonstrating expertise in full-stack application development and database integration.

Internship Projects

Hotel Booking System

16 Oct 2024 - 17 Dec 2024

- Developed a full-stack web application using HTML, CSS, Javascript (front-end) and Spring Boot (back-end) for managing hotel bookings, Designed booking functionality with search, room selection, and user authentication, integrating MySQL for database management.
- Implemented various modules including Guest Booking, Admin Dashboard, Room Availability Management, Customer Management and Payment Integration, ensuring smooth user and admin interactions.

Real Estate Management System

15 Jul 2024 - 15 Oct 2024

- Built a full-stack web application using **React.js** (front-end) and **Spring Boot** (back-end), enabling clients, agents, and admins to manage property listings and transactions.
- Implemented role-based dashboards, **CRUD operations** for property management, and integrated **MySQL** for database management, ensuring seamless user authentication and data handling.
