👤 ABOUT

Hello, My name is **Peetla Narasimham**, a final-year B.Tech 📄 student at **QIS College of Engineering and Technology**. I specialize in **Web Development** and have strong programming skills in **Python** and foundational knowledge in **Java**.

📁 PROFESSIONAL EXPERIENCE

04/2025 – 05/2025
Hyderabad

TRAINEE

Software Development & Engineering Intern
ByteXL & Belong – Neokul Project
Duration: 4 Weeks (May 2025)

07/2022 – 01/2023
Vijayawada

TRAINEE

This is an official experience certificate issued by Microlink Information Technologies, Vijayawada, to Mr. Peetla Narasimham (PIN: 20158CM093) from Nuzvid Polytechnic, Venkata Dripuram.

🎓 EDUCATION

08/2023 – 06/2026
ONGOLE

B-TECH

QIS College of Engineering and Technology (QISCET), Ongole, Andhra Pradesh
B.Tech 📄 – Computer Science Engineering (Pursuing)CGPA (up to current semester): 8.0

06/2020 – 04/2023
NUZVID

DIPLOMA

Institute: Nuzvid Polytechnic, Nuzvid
Course: Diploma in Computer Engineering
Percentage: 83.11%

06/2019 – 03/2020
GOWRAVARAM

SSC

Secondary School Certificate (SSC)
Z P High School, Govaravaram, Krishna District
Marks: 570/600 (95%)

🧠 SKILLS

Languages: Python, java(Basic)
Frontend: HTML, CSS, PHP
Database: MySQL, MongoDB
Soft Skills: Communication
Skills, Leadership

🌐 LANGUAGES

Telugu

English

Hindi

🏆 AWARDS

09/06/2025

TROPHY

NCC CEO SIR

Received the **Tent Pitching Award** from the **NCC CEO Sir** during an NCC training camp.

📄 CERTIFICATES

1 .AI-ML VIRTUAL INTERNSHIP

AI-ML Virtual Intern

Google for Developers – AICTE – EduSkills

2 .COMMUNITY LIBRARY MANAGEMENT SYSTEM

Successfully completed a 4-week industry project on Software Development & Engineering.

3 .NCC 'B' CERTIFICATE - GRADE A

NCC 'B' Certificate – Grade 'A' National Cadet Corps (34 (A) BN NCC, Ongole) | Ministry of Defence, Govt. of India | 2025

4 .JAVA FULL STACK DEVELOPMENT

successfully completed 4 week industry project on software development @ engineering

🔑 INTERESTS

- Playing games
- Surfing Internet
- Drawing

📁 PROJECTS

01/2025 – 05/2025

1 .SEGREGATION AND CONVERSION OF FOODWASTAGE FARMING

This project is aimed at **reducing food wastage** by collecting excess or leftover food through a **donation platform** and converting unusable waste into **organic compost for farming**. It provides an easy-to-use **web-based system** for individuals and organizations to register food donations. To make the platform inclusive for **non-educated users**, it features **voice-based registration using speech recognition**, allowing users to submit donations through spoken input.

Technologies Used: HTML, CSS, PHP, XAMPP (Backend), Speech Recognition (JavaScript API)

06/2024 – 11/2024

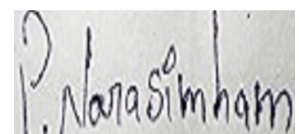

2 .RESTAURANT MANAGEMENT SYSTEM

This project is developed to assist **restaurant owners** in efficiently managing daily operations through a centralized digital system. The platform allows owners to oversee **menu management, order tracking, table reservations, and billing**, all from a user-friendly web interface. The system is designed to improve **operational efficiency**, reduce human errors, and provide clear insights into restaurant performance.

Technologies Used: HTML, CSS, PHP, XAMPP (Backend)

✍️ DECLARATION

I hereby declare that all the facts given above are true and correct to the best of my knowledge
