## 🎓 EDUCATION

**Dr. Shakuntala Misra National Rehabilitation University Lucknow,**  
*B.Tech- Electronics and Communication Engineering*

08/2019 – 09/2023 | Lucknow

**Aminabad Inter College, Intermediate**  
2018 | Lucknow

**Aminabad Inter College, Highschool**  
2016 | Lucknow

## 🧠 SKILLS

**Programming Language:** Python, JavaScript, HTML

**Framework:** FastAPI, React, Django, CSS, Bootstrap

**Database:** MySQL, MongoDB

**Extra Skills:** Docker, Shopify, Excel, Power BI, ChatGPT

## 📜 CERTIFICATES

**Python Full Stack Development (2023)** — completed a comprehensive Python Full-Stack Development course at Aprton Solutions, where I gained hands-on experience in building dynamic web apps.

Passionate Full-Stack Developer & Data Analyst with strong expertise in Python, Django, SQL, Power BI, and front-end technologies like JavaScript, HTML, and CSS. Experienced in developing dynamic, user-friendly web applications, including an online learning platform inspired by Udemy and a feature-rich e-commerce ice cream website. Skilled in analyzing and visualizing complex datasets using Power BI to deliver data-driven insights and support better decision-making. Adept at problem-solving, optimizing workflows, and building scalable digital solutions that blend technical accuracy with real business impact.

## 📁 WORK EXPERIENCE

**Backend Developer Intern, Travlly**

06/2025 – 09/2025 | Lucknow - Remote

Working on the backend of a travel platform, I build RESTful APIs with FastAPI to handle user queries, filter flight data, and serve it to the frontend. My role involves optimizing data flow, ensuring reliability, and collaborating with the frontend team to deliver a smooth user experience. This experience has strengthened my backend, API, and database skills in a real-world project.

**Data Analyst, Sudo2 Learning**

01/2025 – 03/2025 | Lucknow - Remote

As a Data Analyst Intern at Sudo2 Learning, I focused on data analysis and visualization using Excel and Power BI. My role involved handling large datasets, transforming raw data into meaningful insights, and creating interactive dashboards to support decision-making processes.

**Office Associate, ITC Private Limited**

08/2024 – 10/2024 | Lucknow

Supported daily office operations by processing orders received from area executives, coordinating payment-related tasks, and maintaining accurate order records. Prepared PowerPoint presentations and reports for internal meetings, and regularly updated the branch manager on order status and operational activities.

**Full Stack Developer Intern, Decrypton Private Limited**

12/2023 – 02/2024 | Lucknow

At Decrypton Private Limited, I contributed to the design and development of scalable web applications using Django, SQL, and JavaScript. My role involved building optimizing frontend UI, and ensuring smooth backend operations. I actively participated in code reviews, debugging, and performance optimization

**Demand Manager, UnOrg Vendor Solution Private Limited**

03/2023 – 06/2023 | Noida

Led demand generation and customer acquisition efforts by identifying prospects, coordinating outreach, and supporting sales teams. Assisted in tracking leads, analyzing demand patterns, and improving overall sales performance.

## 📁 PERSONAL PROJECTS

**Movie Maniac App**

- Developed a movie discovery application that displays top-rated, trending, and upcoming movies using the TMDB API. Implemented dynamic data fetching and responsive UI to enhance user experience.

**Map Explorer- Most Reviews Places**

- Developed a map-based web application using Django where users can explore places (e.g., tourist attractions or restaurants) that have more than 500 reviews. Integrated an interactive map using Leaflet.js and plotted location markers dynamically from mock JSON data. Implemented server-side filtering in Django to load only high-review-rated locations.

**Rolly Ice Cream**

- It's my freelance project. Developed a fully functional ice cream website with an intuitive user interface and a robust backend. Implemented features for smooth navigation, user interactions, and efficient data management, ensuring a seamless experience. Focused on responsiveness and performance optimization for better user engagement.

**Online Learning Website**

- Developed an online learning website similar to Udemy, utilizing HTML, CSS, JavaScript, Bootstrap for the frontend, and Django with SQL for the backend. Implemented RESTful APIs using Django Rest Framework to enhance functionality and interactivity.
