## SKILLS

- **Frontend Technologies:** React.js, JavaScript(ES6+), Redux, HTML5, CSS3, Tailwind CSS, React Hooks, Material UI, Responsive design, Webpack, Babel, Bootstrap
- **Tools:** VS Code, Figma, Git, GitHub, Jira, Postman
- **Cloud Services:** AWS(S3 Bucket, Amplify), Netlify, Vercel

## EXPERIENCE

### 1. Siya Tech Ventures — (Full Stack Developer) (June 2023 – Jan 2025) [↗](#)

- Contributed primarily on the frontend side using JavaScript, React.js, HTML, and CSS, while also working with payment gateways and backend APIs.
- Collaborated with cross-functional teams to design and implement user-centric features, optimize booking and payment flows. Built and maintained reusable UI components, integrated third-party services, and improved performance and scalability across multiple live projects.

### 2. Redsoftware Solution — (Full Stack Developer) (Jan 2025 – Present)

- Worked on building user-friendly, responsive web applications with React.js, JavaScript, TailwindCSS, and Ant Design, focusing on smooth workflows, offline-first design, and efficient state management.

## Projects:

### 1. Horse Riding Scoring App(Offline-First):

- **Tech:** React, JavaScript, IndexedDB, Ant Design, TailwindCSS
- Built an **Offline-First** Horse Riding Scoring System with **IndexedDB** for offline persistence and real-time synchronization to the server when internet connectivity is restored.
- Designed role-based access control for three user types: organizers (manage event setup), judges (enter scores), and users (view results).
- Focused on responsive UI, component-based design, and state management for smooth scoring workflows.

### 2. Rated Driving Instructors(Full Stack) [↗](#)

- **Technologies:** React JS, Redux, Java Script, Figma, S3 bucket.
- **Integrated the RYFT payment gateway**, which resulted in a **1.5% increase in commission** per transaction. This enhancement optimized the financial flow and increased revenue.
- Improved the signup flow which resulted into 20% increase in lead conversion .
- **Admin Panel:** Worked on implementing the component on Admin panel to do the refund, add filters, pagination, did CRUD operation.

### 3. SafeAP (Frontend) [↗](#)

- **Technologies:** Java Script, React JS, HTML, CSS, Razor Pay, S3, K6
- **Guest Flow Implementation:** prior to the actual signup process added this flow, which significantly increased the user engagement and familiarity with the platform, leading to a **15% boost** in user conversion.
- **Partial Payment feature on website:** Since user is going with through the guest flow, so added the partial payment to book the appointment on same moment and ask the user to download the app and ask user to do remaining payment.
- Implemented a platform-wide generic discount feature allowing SafeAp to run **promotions using discount codes, driving marketing initiatives.**

## Feedbox — Intern (Jan – May 2023) [↗](#)

### 1. Feedbox Community Website

- Developed registration & authentication system for student club members.
- Implemented event scheduling, resources upload, and announcements.

## EDUCATION

### • Shri Vaishnav Vidyapeeth Vishwavidyalaya — (2019–2023)

B.Tech – Computer Science & Engineering
