

SNEHA GOYAL

FULL STACK DEVELOPER

Passionate and detail-oriented Full Stack Developer with hands-on experience in building dynamic and responsive web applications using the MERN stack. Skilled in both frontend and backend development, RESTful API design, and database management. Strong understanding of version control (Git), deployment, and modern development tools. Committed to continuous learning and delivering high-quality user experiences.

PROJECTS

WebChat

Real-Time Chat Application (MERN Stack + Socket.IO)

July 2025

- Implemented real-time one-to-one messaging using Socket.IO with room-based architecture.
- Built features including chat history.
- Used MongoDB for storing users and conversations, Express.js for server-side logic, React.js for the frontend, Tailwind CSS for UI design, and Node.js as the backend runtime.

VeggieVibe

Full-Stack E-commerce Web App (MERN Stack)

May 2025

- Implemented user authentication (JWT-based login/register).
- Features include product listings, cart, checkout, search, and order history.
- Used MongoDB for data storage, Express.js for server-side logic, React.js for the frontend, Tailwind CSS for styling, and Node.js as backend runtime.

Resume Builder

Resume Creation Web Application

March 2025

- Developed using React to allow users to input and edit personal details with real-time resume preview.
- Implemented PDF export functionality for easy download and sharing of resumes.
- Designed a clean, minimal, and fully responsive UI for an intuitive user experience across all devices.
