CAREER OBJECTIVE

Entry-level Java Full Stack Developer skilled in Core Java, Spring Boot, REST APIs, SQL and React.js. Seeking an opportunity to contribute to innovative projects by building scalable, secure, and efficient applications. Strong problem-solving abilities with hands-on project experience in Java applications, eager to learn and grow within a collaborative engineering environment.

TECHNICAL SKILLS

- **Programming Languages:** Core Java (OOP, Collections, Exception Handling, Multithreading)
- **Frameworks & Tools:** Spring Boot, Hibernate, Maven, Git & GitHub
- **Frontend:** HTML, CSS, JavaScript, React.js (Hooks, Router, Context API, Redux, Component Lifecycle)
- **Backend & APIs:** REST APIs, JDBC
- **Databases:** MySQL, Relational Databases
- **Practices:** Agile Methodologies, Debugging, Code Reviews, SDLC

EDUCATION

- **B. Tech (ECE)** — Vaagdevi Institute of Technology & Science | Proddatur | CGPA: 7.3 | 2021 - 2025
- **Intermediate (M.P.C)** — Abhyas Junior College | Proddatur | CGPA: 7.8 | 2019 - 2021
- **SSC** — Jeevan Jyothi High School | Proddatur | CGPA: 8.8 | 2018 - 2019

INTERNSHIP

Web Development Intern | Octa Net Service Pvt. Ltd. | April 2024 — May 2024

- Built a mini e-commerce platform and a multi-utility web app (To-Do, Weather, Countdown, and Calculator).
- Gained practical experience in front-end development, responsive design, debugging, and version control using Git/GitHub in Agile workflows.
- Delivered fully functional applications within deadlines, improving understanding of real-world software development cycles.

PROJECTS

Travel Planning Website | Spring Boot, React.js, REST APIs, MySQL | In Progress

- Implemented real-time travel route visualization using Map Libre GL and Open Route Service REST APIs, enabling accurate and efficient trip planning.
- Developed a multi-modal journey planner delivering cost, distance, and time-based route recommendations for optimized travel experiences.
- Integrated GPS-based location tracking to display nearby hotels and tourist spots dynamically, enhancing user engagement and personalization.

E-Commerce Website | HTML, CSS, JavaScript

- Created a responsive shopping platform with product catalog, cart, and checkout functionality.
- Developed modular, mobile-first UI components ensuring smooth interaction across devices.
- Applied JavaScript data structures to handle inventory and cart operations efficiently.

Bank Account Management System | Front-end, Java, JDBC, MySQL, Maven

- Engineered a Bank Account Management System using Java, JDBC, MySQL, and Maven to manage account creation, deposits, withdrawals, and balance tracking.
- Executed CRUD operations with transaction handling and auto-commit control to maintain data accuracy and reliability.
- Structured relational database with customers and transactions tables, leveraging SQL joins for efficient account reporting and monitoring.
