

Vamsi Chintala

ASPIRING CYBERSECURITY PROFESSIONAL |
CEH MASTER CERTIFIED

OBJECTIVE

Motivated cybersecurity professional with CEH certification and hands-on experience in ethical hacking, network security, and web vulnerabilities through platforms like TryHackMe. Eager to contribute as an entry-level Cybersecurity or SOC Analyst and grow in a real-world environment.

EXPERIENCE

Elevate Labs - Cyber Security Intern

Remote

06/2025 - 07/2025

- Performed vulnerability scanning and basic threat modeling to identify security risks.
- Conducted network scanning and traffic analysis to detect anomalies and unauthorized access.
- Implemented email threat detection protocols to mitigate phishing and spoofing attacks.
- Configured and managed firewalls and secure network settings to protect systems.

PROJECTS / HANDS-ON LABS

Network Scanning and Enumeration, - Set up a virtual environment using Metasploitable2 and Kali Linux, - Performed active scanning using Nmap and analyzed vulnerabilities, - Created documentation on discovered services and open ports

- - TryHackMe Profile: <https://tryhackme.com/p/GalacticTitan272>

PROJECTS

Vulnerability Assessment of Windows 7 using Nessus Essentials

- Performed a full vulnerability scan on a Windows 7 VM using Nessus Essentials.
- Identified 29 vulnerabilities, including critical issues like unsupported OS and ETERNALBLUE (MS17-010).
- Analyzed plugin data, assessed risk severity, and documented remediation steps.
- Gained hands-on experience in network scanning, patch management, and secure system configuration.

EDUCATION

08/2024

Sathyabama Institute of Science And Technology

Chennai, India

Bachelor: Computer Science And
Engineering

CERTIFICATIONS

- CEH (Certified Ethical Hacker v13)
- CEH Practical
- CEH Master
- eJPT (eLearnSecurity Junior Penetration Tester) - IN PROGRESS
- CRTA (Certified Red Team Analyst) - IN PROGRESS

TECHNICAL SKILLS

- Network Security: TCP/IP, Firewalls, VPN, IDS/IPS, Network Protocols
- Tools: Nmap, Wireshark, Burp Suite, Nikto, JohnTheRipper, Metasploit
- Vulnerability Scanning (Nessus, OpenVAS)
- Vulnerability assessment
- Web App Security: OWASP Top 10, DVWA, Juice Shop
- Operating Systems: Kali Linux, Parrot OS, Windows 11
- Basic Scripting: Python, Bash
- Lab Platforms: TryHackMe, Hack The Box
- Penetration testing
