Education

Asansol Engineering College

Bachelor of Technology in Information Technology

2022 – 2025

CGPA : 7.5

Experience

Skyscanner

Front-End Software Engineering Intern

November 2024

📍 Remote

- Contributed to an existing React-based project, focusing on front-end development and UI enhancements.
- Resolved responsiveness issues using modern CSS techniques, ensuring cross-device compatibility.
- Developed and optimized UI components using Skyscanner's Backpack React library, improving user experience.
- Collaborated with designers and developers to implement scalable and maintainable front-end solutions.

Freelance Project

Gifting Tree

Full Stack Developer — React, Tailwind CSS, Shadcn UI, Framer Motion, Sanity(Headless CMS)

January 2025

🌐 Website

- Engineered a responsive e-commerce platform for personalized gifts, driving user engagement with an intuitive browsing interface.
- Designed a headless CMS with Sanity, enabling seamless content updates for over 20+ product categories.
- Integrated WhatsApp Business API, streamlining order processes and increasing conversion rates.
- Enhanced product presentation with dynamic galleries using Framer Motion, reducing bounce rates significantly.

Projects

InvenTrack Hub

React, FastAPI, MongoDB, Clerk Authentication, Material UI, Framer Motion

February 2025

🌐 Website | 🐙 GitHub

- Built a robust inventory management system with product tracking, stock updates, & sales recording.
- Implemented search, PDF export, and real-time stock updates.
- Designed an interactive dashboard with sales & stock analytics using Recharts.

Lost & Found Application

React, FastAPI, MongoDB, Tailwind CSS, Shadcn UI, Cloudinary, DiceBear API

August 2024

🌐 Website | 🐙 GitHub

- Developed a lost & found platform, boosting retrieval efficiency by 60%.
- Secured authentication with FastAPI & bcrypt, optimizing image storage for 70% faster load times.
- Enhanced user profiles with DiceBear API, generating unique avatars automatically.

EasyGrade

React JS, Tailwind CSS

January 2024

🌐 Website | 🐙 GitHub

- Developed a platform for MAKAUT University students, facilitating percentage calculations with 99% accuracy.
- Engineered functionalities for single-semester & average percentage calculations, improving End-user efficiency by 40%.
- Crafted an intuitive interface with animated buttons, enhancing member engagement by 30%.

Technical Skills

Programming : Python

Frameworks : React JS, Tailwind CSS, FastAPI

Miscellaneous : GitHub, Jupyter Notebook

Certifications

- Web Development Professional - (MTF Institute) | 🌟 CERTIFICATE
- The Git and GitHub Bootcamp with Practical Guide - (Udemy) | 🌟 CERTIFICATE
- Programming for Everybody with Python - (Coursera) | 🌟 CERTIFICATE
