## CAREER SUMMARY:

---

Backend Java Developer with 2+ years of experience building scalable microservices using Java and Spring Boot. Strong expertise in REST API development, PostgreSQL, MongoDB, Redis caching, and Spring Security (JWT). Hands-on experience with CI/CD (Jenkins), Docker, and production monitoring.

## WORK EXPERIENCE:

---

Kredmint Technology – SDE I

Sep 2023 – Oct 2025

**Project: Order Management System (OMS)**

- **Designed and maintained microservices** handling orders, inventory, warehouse, delivery, returns, and reporting workflows.
- Developed REST APIs for services such as **Order, Inventory, User, Coupon, Reporting, and Notification**.
- Implemented **JWT-based authentication and role-based access control using Spring Security**.
- Built a **centralised reporting module** using **MongoDB, PostgreSQL, and Redis caching** to provide real-time business insights.
- Enhanced system performance using **asynchronous processing (CompletableFuture), caching, and query optimisation**, reducing API response time by **~40%**.
- Established **centralised exception handling, structured logging, and monitoring** for improved production stability.

**Project: Kredmint Loan Platform (B2B Fintech)**

- Developed backend services for a **digital MSME lending platform** covering the complete **loan lifecycle**.
- **Implemented APIs** for **customer onboarding, KYC, loan application, credit evaluation, disbursement, and repayments**.
- **Optimised response times** using **MongoDB** for data storage and **Redis** for caching.
- Secured sensitive endpoints with **Spring Security (JWT) and role-based access control**.
- **Containerised services** with **Docker** and managed **continuous deployment** via **Jenkins CI/CD pipelines**.

## EDUCATION:

---

Bachelor of Technology (B.tech) | June 2022

Dr. APJ Abdul Kalam Technical University, Lucknow

## SKILLS:

---

- **Languages:** Java
- **Frameworks:** Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Spring Security
- **Databases:** PostgreSQL, MongoDB
- **Caching & Messaging:** Redis
- **API & Architecture:** REST APIs, Microservices Architecture
- **Security:** JWT Authentication, Role-Based Access Control (RBAC)
- **DevOps & Tools:** Jenkins (CI/CD), Docker, Git, Postman, Grafana, Logging
- **Concepts:** OOP, Multithreading, Asynchronous Processing, Exception Handling
