## OBJECTIVE

---

Dedicated Software Developer with expertise in Java and ReactJS, aiming to deliver innovative and scalable solutions. Proven ability to reduce backend response times by 20%.

## EDUCATION

---

- **Computer Science and Engineering**, MVJ Collage OF Engineering - BE 2020 - 2023  
CGPA - 8.12
- **Computer Science**, Government Polytechnic Chintamani - Diploma 2017 - 2020  
Percentage - 76.98
- **SSLC**, The Preethi Public School 2016 - 2017  
Percentage - 81.12

## TECHNICAL SKILLS

---

- Programming Languages: Java, Basic PHP, SQL [Oracle SQL, MySQL], JavaScript, HTML5, CSS3.
- Frameworks: ReactJS, Bootstrap, Tailwind, Spring Framework, Spring Boot, Hibernate, Microservices, REST API, JPA.
- DevOps and API tools: Git, Postman, Thunder Client.

## SOFT SKILLS

---

- Confidence, Team-building, Analytical thinking, Creativity and Quick learner

## EXPERIENCE

---

### Junior Java Developer

Merry's Info-tech and New Gen Educare

Nov 2023 - present  
Bangalore, INDIA

- **Bluechip** : Contributed to both frontend and backend development. Designed intuitive and responsive user interfaces using HTML, CSS, and JavaScript. Optimized backend data handling processes, reducing response times by 20% and improving overall performance.
- **AACP** : Spearheaded backend API development using PHP, ensuring seamless integration with the frontend. Enhanced API documentation to streamline developer onboarding and reduced integration time by 30%.
- **Jiffy** : Engineered robust backend APIs and optimized their integration into frontend systems. Focused on creating scalable solutions and detailed API documentation, improving overall project efficiency and collaboration.
- Drove efficiency and collaboration by engineering robust solutions, ensuring project success across multiple teams.

## PROJECTS

---

### Online food ordering system

- Developed using HTML, CSS, JavaScript, MySQL, and PHP.
- Implemented core functionalities such as user registration, menu display, order placement, and checkout process.

### ReactJS-Multipage website

- Created a multipage website using ReactJS and the router component.
- Developed a college website providing detailed information for students.

## INTERNSHIP

---

### AI ROBOSOFT (08/2020 - 09/2022)

- Gained expertise in Data Science and Machine Learning using Python.

## **CERTIFICATES**

---

- Oracle SQL (06/2024)
- PHP Certificate (01/2024)
- Java Full Stack Developer (02/2023 - 10/2023)
- Front-End with ReactJS (01/2022 - 06/2022)

## **LANGUAGES**

---

- English, Hindi, Telugu, Kannada

## **INTERESTS**

---

- Playing Cricket
- Listening music
