chinmaypawar1020@gmail.com

PROFESSIONAL SUMMARY

Certified Java Developer with 1+ year of experience in building scalable back-end systems using Java 8, Spring Boot, REST API's, and micro-services. Proficient in Hibernate, SQL optimization, JWT, and Spring Security. Skilled in Agile, CI/CD, unit testing, Git, Maven, and Postman.

TECHNICAL SKILLS

- **Programming Languages:** Java (8+), SQL
- **Frameworks & Libraries:** Spring Boot, Spring MVC, Spring Security, Hibernate, JSP
- **Databases:** MySQL, JDBC, Hibernate ORM
- **Tools & Platforms:** Git, Maven, Postman, JUnit, CI/CD
- **Web Services:** Restful API's, JSON
- **Concepts:** Object-Oriented Programming (OOP), Multithreading, Microservices, JWT Authentication, MVC Architecture

PROFESSIONAL EXPERIENCE

Java Developer

Fox Solutions Pvt Ltd | June 2024 – Present

- Designed and implemented RESTful microservices using Spring Boot and Spring MVC, improving scalability and maintainability across modules.
- Developed database schemas and integrated MySQL using Hibernate ORM and JDBC, optimizing query performance by 20%.
- Secured APIs using Spring Security and JWT, reducing unauthorized access attempts by 40%.
- Participated in daily stand-ups, sprint planning, and code reviews in an Agile development team.
- Maintained source control using Git, and managed project builds using Maven.

PROJECTS

Income Tax Backend API

Technologies: Spring Boot, Hibernate, MySQL, JWT, Spring Security, Kubernetes

- Created API endpoints from ER diagrams, enabling seamless backend–frontend communication.
- Configured Spring Profiles and externalized configuration for multi-environment deployment.
- Implemented JWT-based session management and role-based access control using Spring Security.

Employee Management System

Technologies: Java, Spring Boot, Hibernate, MySQL, JWT, REST APIs

- Developed a secure CRUD application to manage employee records with role-based access control.
- Built RESTful API endpoints with comprehensive exception handling and input validation.
- Used JWT tokens for stateless authentication and Spring Security for session protection.

Course Registration Portal

Technologies: Spring MVC, JSP, JDBC, MySQL

- Designed a multi-user portal for course registration with user authentication and enrollment workflows.
- Applied MVC architecture to separate concerns, improving maintainability and scalability.
- Enhanced performance of database access with optimized SQL queries and connection pooling.

EDUCATION

B.Tech in Electronics and Telecommunication

R C Patel Institute Of Technology, Shirpur

2020 - 2024 | CGPA: 8.24
