

Alina Dyakova

Frontend developer

I am a frontend developer with experience in E-commerce projects. In my free time I write logical games in JavaScript, study new technologies and experiment with visualization. new technologies and experiment with visuals. Also I participate in mitaps and hackathons, where I can broaden my horizons and pump up my skills in solving non-standard problems

Work experience

● NDA 12.2023

Frontend developer

Online sanitary ware store

- Self-designed a multi-page, responsive online store.
- Developed interactive interface components such as sliders, accordions, modal windows, and other user interaction elements.

Stack: JavaScript, HTML, CSS, Webpack.

Trade merchandising management program

- Ensured application stability even under high loads, minimizing the risks of data loss.
- Organized integration with Yandex.Maps, including development of custom labels for visualization of key points.
