PROFESSIONAL SUMMARY

Full Stack Java Developer with 3 years of experience in developing scalable and efficient web applications using Java, Spring Boot, and Angular. Proficient in building REST APIs, migrating legacy systems, and working in Agile teams. Strong understanding of SDLC, code optimization, and third-party API integrations. Passionate about clean code and continual learning.

PROFESSIONAL EXPERIENCE

System Engineer

05/2022 - Present

Tata Consultancy Services Ltd (TCS)

Pune, Maharashtra

- Developed and maintained REST APIs using Java and Spring Boot for enterprise-level internal microservices.
- Migrated legacy JSF-based frontend to Angular and Spring Boot-based microservice.
- Worked on production issue resolution and implemented unit testing using JUnit.
- Contributed to JSF to Angular migration by developing 3+ dynamic screens.
- Used PL/SQL for backend operations and data handling.
- Managed tasks and sprints using Jile, participated in daily stand-ups, and sprint reviews.
- Optimized codebase to enhance code performance and collaborated with senior developers during code reviews.
