## OBJECTIVE

Innovative and detail-oriented Java Developer with expertise in Java, Spring Boot, REST API, Hibernate, and Data JPA. Passionate about crafting efficient, scalable, and user-centric software solutions. Aspiring to leverage my technical skills to drive impactful contributions and foster organizational success in a forward-thinking environment.

## PROFESSIONAL SUMMARY

- Solid Java programming skills with experience in **JDBC, Servlets, JSP, and SpringBoot**.
- Proficient in **HTML, CSS, and JavaScript** for building responsive web interfaces.
- Skilled in **Oracle SQL, Hibernate** and **Data JPA** for managing databases and improving query performance.
- Familiar with Spring and **Spring Boot** for developing scalable applications and **RESTful APIs**.
- Developed **full-stack** applications, integrating front-end and back-end technologies for seamless functionality.
- Experienced in **debugging** and **troubleshooting** to identify and resolve issues, enhancing application stability and performance.
- Strong communicator and quick learner, with a passion for new technologies and collaborative **teamwork**.
- Demonstrated ability to deliver effective solutions under tight deadlines and contribute positively to project outcomes.

## PROJECT EXECUTED

### Title - Insurance Report Generation System

**Technologies** - Java, Spring Boot, REST API, Hibernate, Data JPA, HTML, CSS, JavaScript

**Team Size** - 5

**Role**- Backend- Developer

**Description:** Spearheaded the development of an advanced insurance report generation system that streamlined data processing and reporting.

#### Key Responsibility

- Designed and implemented robust REST APIs for efficient data retrieval and policy management.
- Leveraged Hibernate and Spring Data JPA for seamless database interactions, ensuring data consistency and security.
- Optimized backend workflows, resulting in a 30% reduction in processing times and enhanced system throughput.
- Conducted comprehensive testing and validation, ensuring high system reliability and user satisfaction.
- Created detailed documentation to support scalability and ease of maintenance.

### Title - Online Bookstore Management System

**Technologies** - Java, Spring Boot, JSP, Servlets, Oracle SQL, HTML, CSS, JavaScript

**Team Size** - 3

**Role**- FullStack Developer

**Description:** Developed an end-to-end online bookstore platform to facilitate efficient inventory and order management.

#### Key Responsibility

- Created functionalities for user registration, book searching, order processing, and admin management.
- Designed and optimized Oracle SQL schema, boosting data retrieval efficiency by 20%.
- Developed responsive web pages with JSP, HTML, CSS, and JavaScript.

## SKILLS

- Java
- Java8
- Java11,17
- JaxP
- SpringBoot
- DataJPA
- Hibernate
- Microservices
- REST API
- HTML
- CSS
- JavaScript
- Eclipse
- IntelliJ
- MySQL
- JSON
- Maven
- GIT
- Spring MVC
- Spring Security
- Agile
- Aws
- Kubernetes
- Docker
- Kafka

## EDUCATION

- 2022 - 2024 | **BPUT, Odisha**  
**Master of Computer Application**
- 2019 - 2022 | **Berhampur University**  
**Bachelor of Science**
- 2017 - 2019 | **CHSE, Odisha**  
**Intermediate**
- 2016 - 2017 | **BSE, Odisha**  
**Matriculation**
